

HAROLD PATRICK  
**RECRUITMENT**  
Manufacturing & Renewable Energy

**Maintenance Technician x 2**

Harrison, NJ

Days

Permanent

\$27-30p/h +ot

An immediate start is available

Would you like to work for a company with a long history in metal forming / processing who pride themselves on the longevity of their employees?

We are currently recruiting 2 x Maintenance Technicians, due to retirement / succession planning

A skill set including hydraulics, pneumatics, mechanical / electrical maintenance, welding, PLC faultfinding and proactive faultfinding is essential

Previous experience as a Maintenance Technician, Industrial Electrician, Millwright, Maintenance Mechanic or Electro-Mechanical Technician would be fantastic.

Production runs Monday-Thursday and Friday is used for PM's and project work

Full training on the company's specialist equipment will be included but it is expected that any applicants have practical experience in maintaining automated production systems such as Presses, Machine Tools, Motors, Drives and associated machinery

Spanish language skills would be beneficial alongside fluency in English

Benefits include 401(k) with company match, two weeks' vacation and health benefits
